- Except Online Zoom lessons, our school will continue to **provide Chinese Language, Mathematics, General Studies and Liberal Studies** online assignments for students to consolidate and extend learning. Students can log on to the Self-learning platform(自學平台) at **5pm** and complete the assignments of the day. In order to collect information more effectively for analysis and feedback, students are required to log in using their **student account** when completing online assignments starting from 20/4.

Regarding the above:

(1) Zoom security measures, operation guide and links

(2) Log-in Steps

The IT team will announce the details on 16/4. Please pay attention.

- As the pandemic continues, it is expected that it will take a long time for classes to resume. For your convenience to teach and guide children, our school will post Unit 3 notes and assignments and IEP teaching materials towards the end of April.

4. As our school promotes “**Learn by Living**” (從生活中學習) , we encourage parents to arrange a wide variety of activities for your children ranging from doing housework and exercise, reading, self-learning to learning to take care oneself in daily life . This allows students to build an orderly life and prepare for going back to school.
  
5. Class teacher will start to contact parents from **17/4-19/4** to understand students’ need and further explain the arrangements.

We wish you and your family good health and happiness!
